## Customer Reviews

I really liked the introduction we got to the characters and world of The Shade in the first book, A Shade of Vampire, and was happy to see that this book picked up right where that one left off with Sofia and Ben being allowed to leave the island. For the first half of the book we get to follow along with Sofia, Ben and Derek as they try to deal with the fallout of their time together and try to move on with their lives. For Sofia and Ben they try to return to their lives at high school and even try to

take their relationship to the next level but it's clear that they are both dealing with some PTSD issues due to their time spent in The Shade. This aftermath was very well written and I found their reactions and how they dealt with things to be very believable. Derek is also dealing with losing Sofia and some might say that he's not handling it very well. It was obvious from the last book how much she came to mean to him during their time together and how she somehow brought light to his darkness, but without her we get to see the darkness start to overtake him again. I liked how we go to bounce between the three perspectives, it was fascinating to see how very different each of the three were dealing with what happened. About halfway through the book Sofia and Ben have to choose which path they are going to take and from here out there are plenty of twists and turns and new information (including a few jaw dropping moments) that promises to make you want to keep reading to find out what happens next! Several new enemies pop up and we see that Sofia is important to them all, I am very excited to see how it all plays out! As with the first book, the characters are well written and the multiple POV's is seamless and I think an effective way to tell this story. The imagery is also wonderfully described, I can clearly picture The Shade and all of its beauty in my head as I am reading. It's very interesting the juxtaposition of the beauty of this island with the horrors that have (and are still) taking place within its confines. I also have to say that the covers of the books in this series are also stunning, I think they all capture the beauty and the wonder of The Shade perfectly. This was a very good follow up to A Shade of Vampire and I'm eager to continue on this journey!

When I thought the second book couldn't be better than the first one I was pleasantly surprised. The story line is fantastic. Bella takes you on a adventure that you can't come down from. When you get to the end of the book you don't want it to end. Bella really takes you right into the story itself. You really get to know the characters . Love Bella's writing

I have another favorite Author! I didn't think anyone could compete with Rachel Higginson! Best series of books I've read since I found Rachel Higginson :) Not many books can capture my attention & draw me in. I read because it helps me fall asleep. So if I'm reading during the day it must be a good book! This series is amazing & draws you in from the beginning. I have hated each time I have had to stop reading any of the books. There is always something going on. It's a page turner! I am always sick & can't do the things I used to even though I'm still young(ish). It's a breath of fresh air when I read a good book. I really needed to find another favorite author because I read all of Rachel's books & needed books to read while I wait for her next book. But any books I read in the

mean time just never compare to Rachel's. They are always disappointing & I get board to easily & have to make myself finish the book. But not with Bella Forest! I have inhaled this series & also "A Shade of Kiev" which was also Amazing! I have already Pre-Ordered book 11 & can't wait! Luckily I still need to read the "Beautiful Monster" series! I just know I'll love it to! :)Thank You Bella!

**\*\*Please note this review will have spoilers for A Shade of Vampire\*\***I absolutely loved A Shade of Vampire and had to get the remaining books in the series, but haven't had a chance to read book two until now. This is a fantastic series, so very different from any other vampire one and I love the characters to pieces. Ms Forrest has a wonderful writing style and I was hooked from the get go.Following on from A Shade of Vampire, Sofia Claremont and Ben Hudson are back to reality and have to face the wrath of Ben's parents. Everything feels surreal to Sofia and Ben, being back in the sunlight but having dark nightmares. Can they overcome their experience in the Shade?They try to be normal and start back at school and do everything they did before the Shade. It's not that easy for Sofia though and for some reason, Ben is behaving differently towards Sofia.Back on the island, the Shade is undergoing some drastic changes, Derek has found his dark side and is missing Sofia terribly. Derek has decided that the island has become lazy and if they were to go to war, they would lose. He starts finally taking an interest in the inhabitants on the island and have his army prepare for war.Ben is having difficulty coming to terms with his physical and emotional scars. He is trying to convince Sofia that the vampires are evil creatures and must be destroyed. Sofia doesn't understand Ben's theory and knows Derek has some good in him. Which side will they each choose?Will Sofia be able to move on from Derek? Will she be able to live a normal life? Is Ben able to overcome his pain?Sofia receives a little help from a friend to make her decision and Ben makes a tough decision of his own. Ben also finds there are a lot more secrets hidden than anybody realises. Derek makes some decisions where a lot of the community does not like and causes unrest within the Shade.There are an immense number of elements going on in A Shade of Blood and the twisty path that you follow throughout keeps the reader guessing. I loved all the elements and with Sofia being desired by more than one vampire as well as the Hunters, who is going to win? I am certainly left wanting for more of this fabulous world and need to find out what happens to Sofia, Ben, Derek and Vivienne. I highly recommend this series to all fantasy readers.
