## Synopsis

A fun book of math problems based on Minecraft! Are you ready for an adventure? With this book you will dive into the Minecraft world as it takes you on a journey of discovery. Hunt for hidden clues and decode secret messages. Solve mysteries and equations as you help Bob, Larry, Steve, and others battle creepers and explore their world. Discover details and bring color to the world as you make the characters your own. You'll do all of this while strengthening your mind and imagination. While solving all these Minecraft Mysteries you will be using math and practicing your addition, subtraction, multiplication and division skills! So, I'll ask again... are you ready for an adventure? Perfect for students with Dyslexia, Dyscalculia, Asperger's Syndrome, ADHD and other learning challenges. We tap into the creativity of struggling learners to help them develop the foundational math skills they need to succeed! We use the Dyslexie Font to make reading easy for children with reading confusion! For more books like this visit [www.FunSchoolingBooks.com](http://www.FunSchoolingBooks.com)

## Customer Reviews

This book is for my grandson. He had cancer when he was 4 and it came back when he was 8. He is in remission now. He cannot go to school because he has to be protected from so much, such as animals, dust etc. He is a great kid with a great outlook on life. I love him.

So glad I bought one for each of my kids! I even bought one for my 13 year old and she grabbed it, went to her room and did the first 15 pages before going to bed! If your child loves minecraft, this is a winner! This covers addition, subtraction, multiplication, division, word problems, and more. Lots

of room for creativity and sure to keep their attention. Perfect size, not too much that they won't finish, but enough to show a good amount of work. The Thinking Tree has done it again!

My son adores this book. He is challenged by the pictures and how to do the math but at the same time, he loves the fun involved in it.

This has been great for my daughter!! She does not like math, but this has made it fun for her.

My daughter loved being able to insert her own numbers in the math problems.

This is an amazing book with the latest things kids are having fun with . Great way to fun learn . Will buy fun schooling books again.

My girls are so excited to jump into this book! My 3 year old has even asked to do it! Ill be buying another for her to "work" on!

This is such a fun activity book for those who enjoy mine craft. It helps you focus on problem solving and math while having fun as well!
