Customer Reviews

I don't really understand giving these cards anything less than 5 stars. They are of generally the same quality as cards costing almost 3 times as much. I like the fact that they are all the same white color, nice size, relatively sturdy, and easy to write on. The only reason not to like them is because you were looking for something else and had not fully understood the description. They are 2x3.5 inch cards on white index card quality paper. I wasted my money on some more expensive cards before I found these.

These are good blank flashcards, in a nice box with a sturdy lid. My only real complaint is that the front side is glossy, so regular pens smear. I'm using a thin sharpie now and it's working out well, but I didn't know from the description that it would be necessary to do that. Other than this relatively minor issue, it was a good buy at a decent price, and allows me to make my own foreign language vocab cards. (As a side note, I've found it useful to write verbs in one color, nouns in another, etc. and sometimes I put a colored streak across the top of a section of cards so I can see the classification at a glance from looking at the top of the box.)

I am very pleased with the quality of these cards. perfect size, and love that the box contains them for storage.

These will be very nice to help me study for the GRE. The flashcards aren't quite as thick as I thought they would be. So I will have to see how well they hold up over time and use.

Alot for your money. Serves the purpose well

I purchased these from my school bookstore and they had a shiny side, thereby requiring a ball point pen. The ones i ordered from did not have a shiny side! Much better!

It's exactly what it sounds like.

Must-have for students, especially the sciences!!
