Million Dollar Habits

Synopsis

You've worked very hard to get where you are today. You've paid your dues. You've made sacrifices. But are you making enough money? Is your income growing as fast as you deserve? Everyone creates his own destiny. If you haven't gotten the results in life you know you deserve, it's because you haven't found the right tools. Once you learn the secrets found in Brian Tracy's Million Dollar Habits, you'll join an elite group of professionals who call their own shots, write their own paychecks and enjoy complete financial freedom. Take complete control of your career and future financial life. This new and powerful system reveals the secrets and techniques of how you can:

- Develop a complete strategic plan for getting everything you need from your life and career
- Design and control the direction of your career and move ahead faster
- Improve your decision making skills so you can surpass competitors
- Maintain health and wellness throughout your life and increase your energy levels

- Take control of your destiny
- Make

better choices Move beyond your comfort zone Plan for your financial independence Overcome procrastination Achieve your life ambitions Revitalize relationships Live with energy and integrity
--This text refers to the Paperback edition.

Brian Tracy is Chairman and CEO of Brian Tracy International, a company specializing in the training and development of individuals and organizations. He is the top selling author of over forty-five books that have been translated into dozens of languages. Brian is happily married and has four children. He is active in community and national affairs, and is the President of three companies headquartered in Solana Beach, California.

I love the specific tips that are given in this book. Sure we all know some of them but seeing them in print, staring at you, makes them easier to put into practice. Knowing something is not enough. You have to put it into practice to get any good out of it. I got the title of this review from just one little passage in the book...****"No matter what you have done or not done in the past, at any time, you can draw a line through your previous life and make the decision that your future is going to be different."****Two other Tracy books that I also recommend areÂ The 100 Absolutely Unbreakable Laws of Business SuccessÂ andÂ Advanced Selling Strategies: The Proven System of Sales Ideas, Methods, and Techniques Used by Top Salespeople Everywhere. The advice in them and this book can be applied by anybody although the books are mostly aimed for business owners or salesmen .Just as Dan Kennedy's No BS time management book is mandatory if you want to get the most out of your time, this book is just as powerful when it comes to developing habits to follow throughout your business life. I'll leave you with one more quote from the book. It is filled with good advice but the following quote should be taken to heart by you.****"If you are willing to work on yourself long enough and hard enough, you can form and shape yourself into the kind of excellent person that you were designed to be."****

I recommend this book for young adults just starting their careers, because it contains so much useful information about people skills, saving money and investing, being a top performer in the workplace, sales and marketing, leading a healthy lifestyle, starting your own business, and character and leadership. Tracy teaches time-proven principals of success in business, personal life, and finances. This book contains the habits of self-made millionaires. I wish I'd known many of these bits of wisdom when I started my career decades ago.

Another wonderful book from Brian Tracy. Yes there is a little information from his previous books in here, but it fits, and it works. I learn through repetition. It's as if my mentor is reiterating his most important points. I'm on my way to becoming a millionaire!

Not quite as good as Self-Made Millionaires. I bought it because I could not find SMM on CD.

You simply cannot go wrong buying any of Brian Tracy's works. Whether it be books, Cd's, DVD's, audio programs or training in any form, he is an acknowledged master who has "been there and done that." From a nobody with nothing, to a multi, multi-millionaire, he teaches you what really works, not just theory or conjecture as so many others do. He has changed more lives for the better than you can possibly imagine. I know...he changed mine!

Great book!

Very useful book for anyone looking to build a business or in general achieve goals and ambitions in life. The book guides step by step how to accurately find what you love and thrive on it. Loved it definitely recommend it!

Old, old, old... What can I say? Suddenly making a million dollars doesn't seem like such an exciting prospect anymore. I much preferred reading 'The Millionaire Next Door' and 'The Millionaire Mind'.
