## Customer Reviews

Fast shipping. 100% satisfaction guaranteed.

This little treasure will have you looking at cast off items with a more resourceful eye. Many of these items would not get a second glance but the author has found interesting ways to repurpose flea market or discarded items. The project on the front cover is an example of a creative way to use those small side boards once part of old dining room sets. I am a fan of stripes, so the small dressers done in wide stripes has great appeal as well as a playful side. The techniques suggested can be applied to a variety of objects not just the ones illustrated in the book. I can't wait to go out this week end and rescue some unloved objects and give them a new lease on life. Undoubtedly this book is a great find...one of the best for sparking new ideas for those low on cash but high on imagination.

This book had some creative and interesting make-over ideas for furniture and accessories. Lots of ideas can be used in other ways, too. Well worth getting for inspiration!

The book arrived on time and was in great condition. The content of the book is an easy read with

helpful pointers.

Very quick delivery! I really like this book. Despite the fact that it is not real current, it has some ideas in it that I hadn't seen before and that could be modified to be up to date with current trends. I am very happy with this purchase and will refer to it often for inspiration!

This is my favorite book on decorating. It inspires me to tackle fun projects.

Nice book.

Great Book.

good ideas!
