## Customer Reviews

The designs in this coloring book make me think of my various vacations to tropical islands, especially to different islands in Hawaii. In addition to scenes which have a vacation feel, there are designs of flora and fauna (including many fish) that bring up an island feel. The designs are very

detailed with lots of additional lines so you can use a huge number of colors if you wish. Coloring in the book makes me yearn to plan another tropical vacation in the near future. While you can have access to .PDFs when you purchase this book, my review is based on the book as it is received from . That way you will know what the pages look like and how they accept color. I like that the publisher provides the digital version as well so you can choose the paper you wish to use and/or to color the pictures as many times as you choose. This is what I found while coloring in this book and testing the paper with my coloring medium: 25 x 2 each island designs for a total of 50 coloring pages. Designs are printed on one side of the page. Paper is typical of CreateSpace: white, thin, slightly rough and non-perforated. The back of the page is printed black. The designs do not merge into the binding. There is a heavy framing line at the outer edges of the design to give the project a more finished look, especially for framing. Glue Binding (there is room to cut the pages out if you choose to do so.) Though you cannot see the bleed-through easily due to the back of the page being printed in black, I recommend the use of a blotter page when working in this book. I use a page of card stock or several sheets of heavyweight paper under my working page. It keeps seeping ink and marring dents from ruining the pages below. Alcohol-based markers bleed through the page quickly. Water-based markers bleed through in spots. Gel pens and India ink pens leave shadows on back of the page. India ink can bleed through if you apply heavily or multiple coats. Coloring Pencils work well with this paper. I found that I could layers the same color for deeper pigment or multiple colors and I could blend easily using a blending stick. I tested both oil and wax based pencils. I also found that hard lead pencils leave dents through the paper.

Coloring book has fun ocean and beach pages to color. Includes sunbathing, scuba diving, surfing, toucans, flip flops, palm trees, coconuts and more tropical theme pages. I received this today and colored one page with Copic Sketch markers. These pages are also suitable for colored pencils and water-based markers. I really like they are all black on the back of each coloring page so the markers don't show up on the back. And as described, it brings two coloring pages of each image. It's nice to be able to use different colors or mediums on each of the two.

This book is a hit and a miss for me. I look it then I don't. I like the beach scenes and the vacation island feel. There are to many lines through out the pictures that throws me off. But most of Jades books are very detailed, I have to remember that just because it's detailed doesn't mean it can't be kept simple. I love this line of books because they give you a lot of bang for your buck. Two of each picture of one sided and black backing

Island Paradise reminds me that I need to take a vacation. Every page reminds me that the beaches are calling me. They are so fun to color. Each page has lots of details and I would recommend this book for anyone who wants to spend a few days on a single page.

Full of fun beach inspired illustrations, it will be fun to color. However there are duplicate pages of the entire book, instead of a book full of unique images. The book could've been half the size in content. That's a disappointment. One plus is a free PDF version available online so one can print pages to color multiple times. In offering that, it kind of eliminates duplicating all the pages printed.

This book contains fantasy scenes not realistic as shown in the pictures. Overall, there are 19 different pictures covering different subjects related to sea, beach, animals, people and activities.

Beautiful images!! As always Jade never disappoints! She creates the fun, romantic, island adventure. Looking at the images makes me ready for fun in the sun and sunset nights on the beach. I can't comment on paper quality because I got advanced copy of pdf but I'm guessing it's the same as most books printed out by createspace (please keep in mind the artist has no control over the paper quality when using createspace for printing). I highly recommend this book for all colorist although it maybe a bit to detailed for young children. Grab your copy, relax and enjoy! As always HAPPY COLORING!!

I love this adult coloring book, it is amazing. The details of the coloring pictures are awesome. I am so glad I have this coloring book. It is the most relaxing thing to do. Coloring books like this have brought respectability back to adults who color. Would I recommend this product to other people? Yes I would including friends and family..I absolutely think this is great product. All opinions are my own and they are not influenced by anyone but myself.
