This book was basically new when I got it, and I wouldn't have been able to write my IEPs this past school year without it! Such a helpful and well-laid out book!

This is a great beginners guide to writing an IEP but you will find that whatever school you are with understand what is written here in different ways.

I bought this book because it was required reading for my class. It is really thin but it is handy when

you're writing an IEP.

Used it for a university class I teach. It was very helpful!

I never got this product and I needed it for a class. Im sure it's a great book but whoever is responsible for sending it sucks
