Beginning Blues Keyboard: Complete Blues Keyboard Method

Synopsis

Anyone with basic keyboard skills (equivalent to Alfred's Basic Piano, Lesson Book 2) can dig right in and begin learning blues right away. Learn what it takes to create the distinctive sound of the blues, including basic chords and scales, blues melodies, improvisation, turnarounds and intros. Other topics include the 12-bar blues form, walking bass and playing in a band. Full of fun blues tunes to play, Beginning Blues Keyboard provides a step-by-step enjoyable way to learn the blues. 96 pages.

Customer Reviews

The description said that everything was included. To me that meant the dvd which was missing. The book is fine by itself but the ad was patently misleading.

The book its OK. But its without CD [Beginning Blues Keyboard \(Book & CD\)](#) (Complete Blues Keyboard Method)Its Good for beginners. You need e teacher, but its a good book for following

It's a good book, but too advanced for me. Maybe someday...

I got the book in extremely fast. It's a lot of sheet music and no CD or DVD. I thought I was getting the one with the CD but apparently I didn't. There's a version with just the book, then a version with the CD, and a version with the DVD. I want to exchange it but only gives me the option to return

with me paying for the shipping costs. The CD version was only \$3 more than just the book by itself. I'm either going to return it or just buy the DVD separately for an extra \$20. I'm not too great at reading sheet music so without a CD or DVD, this book is pretty useless to me.

I received my book in great condition, and shipping was prompt. However I am very disappointed that my book came without the audio CD. I have tried to learn without the benefit of being able to hear the music, but it is very difficult and frustrating. Before purchasing this book, I read the reviews, and was excited to get started. I also ordered two other Beginner Blues Piano books, (David Bennett Cohen Teaches Blues Piano & Blues Piano: Hal Leonard Keyboard Style Series (Keyboard Instruction) when I ordered this one. Both the other books included the audio CD, and are much easier to learn from because of the cd allowing one to hear the notes as well as read them. I wish it had been more clear that this book was being sold without the audio cd. The reviews were written about the book being offered with cd, not without, and thus lead to my confusion. I have tried to just order the audio cd alone now, to accompany my book, but it is not available.
