Customer Reviews

This is such a fun and interesting book. I've shown it to many people. All of them are interested to know why they are the way they are. Recommended to anyone who is interested in exploring their own personality.

Still reading but WOW! Blew my mind. So much good information! I bought it so that I can better parent our new addition (3rd boy) but ended up getting good info to use on anyone I know! I'm getting this book for my dad, my sister-in-law, and me best friend.

Another excellent book by Kevin Leman. Written for lay people, Dr. Leman explains how birth order affects characteristics of all family members.

This is my 2nd purchase of Dr. Leman's book. The first one I gave to a friend. I really like this and I am a "misunderstood" middle child.

Loved this book so much that I like to give it as a gift to others. It's entertaining and funny and SO interesting. Quick read.

My hubby and I are both first borns. Little did I know what I was picking up when I went to the library so many years ago! I swear it was better than any therapy for marriage! I read it, then had him read it right away. We were both like...OHHHHH!!!! That's why you do this, that's why I do that...it was AWESOME! We read it when we'd been married 5 years....now married almost 20, I swear out of everything I've read on everything this stands out as a very favorite for understanding why we do what we do! I now buy them in bulk to give for wedding gifts (along with a gift card ofcourse;) HA!

I first learned about this Author on the Phil Donahue show in the early eighties. interested in finding out your characteristics?

I liked this book because it helped me gain a perspective from other birth orders. Some of it was not a surprise, but a good reminder now that I have 2 kids. I do relate to my children differently as the book mentions. I find myself noticing how the baby of our family doesn't take herself so serious. It's a good reminder for me as a first born.
