Customer Reviews

I have several books by Penny Farthing Graphics in my collection. They are published via CreateSpace which is generally used for self-publishing. The designs are drawn by a variety of artists from all over the world and are licensed via Shutterstock.com. What we end up with is a great coloring book (although on thin paper) with a large and varied selection of designs. Because Shutterstock licenses to others, it is possible that you may have seen a couple of these images in other books as well. The mandalas in this book are almost all circular in design (one has kind of a triangular look to it, but still has a number of circles within in. What I appreciate most about the designs in this book is that most of them have larger coloring areas which are easier to deal with. There are a couple which have small, intricate parts but for the most part, these should be easy and fun to color. I especially like using my fine and ultra-fine Sharpies with these. For the small and

intricate spaces, I've recently starting using Uni-ball Signo in the 0.38 size and I have found it excellent for tiny details. All of the designs stop well before the binding. The designs are printed on one side of thin white non-perforated paper that is typical for books published by CreateSpace. The binding is glued but there is plenty of room for you to cut a page out if you choose to do so. All of my markers bleed through and my gel pens either bleed through or leave a distinct shadow on the back of the page. My coloring pencils work well with the paper and behave as expected for their lead time(hard/soft). I will use a piece of chipboard or heavy paper behind the page I am working on so I don't ruin the following page with leaking ink. Since I am using my Sharpies with these, it is a must! While I could wish for thicker, perforated paper, it appears that this is the quality that comes from CreateSpace (which is an company.) What I really like about the CreateSpace is it is a way that independent artists can get their work self-published. That way, I get a huge choice of design styles albeit with not the best paper. These are the coloring medium that I use for testing. If there is something else you feel I should be testing, please let me know and I will see if I can add it to my growing pile: Markers: 1) alcohol-based — Copic Sketch, Prismacolor double ended markers (brush and fine point), Sharpies (fine and ultra-fine) and 2) water-based — Tombows dual end markers (brush and fine point), Stabilo 88, Staedler triplus fineliners, and Pentel markers. Gel Pens: Sakura, Fiskars, Uni-ball Signo 0.38, and Tekwriter. Coloring Pencils: Prismacolor Premier Soft Core, Derwent Colorsoft, Prismacolor Verithins, and Faber-Castel Polychromos. A free sample of this coloring book was provided for test and review purposes.

This book is true to its woed. These are the World's Best Mandala. book. The mandalas are of varied degree of difficulty. Simple mandalas to the more intricate,. The Paper is white and the pages are single sided with clear crisp images I would put in a piece of card stock between the pages to keep markers from bleeding through if you want to use that medium. I would highly recommend this awesome Worlds Best Mandala Adult coloring book to anyone who loves to do mandalas.

I have ordered several of these coloring books by Penny Farthing(I just don't remember the value of a farthing!!) Must be British to understand that one!! The pictures are very, very nice. There were 2 black pages and I colored the white picture with glitter gel pens and they turned out really great. I feel that the price is very reasonable, arrived quickly and as described

Simply the best! If you like challenges and have patience, this is the book for you. Lots of intricate detail with designs centered nicely on the page, leaving margin room to remove the non-perforated

pages, tho I'll be coloring this book cover to cover! Highly recommend

Wow! These mandalas are awesome! If you are looking for a challenge than this is definitely the book for you! Single sided pages, perfect for colored pencils or gel pens....you could use markers if you wanted just be sure to put a piece of card stock or something in between the pages. Definitely recommend this book if you love challenges, and you have a lot of time and patience to work on them!

Very disappointed! The pages were not perforated for easy removal, and paper quality was poor...not conducive for gel pens. Unfortunately. I purchased the set of three plus another one. I ended up giving them away. What a waste of money!!

I like all mandalas, an assortment of detailed and not so much. Price is great but wish there were tear-out slits...nice heavy paper too

I LOVE THE MANDELLA BOOKS WITH ONE EXCEPTION AND I HOPE MARTI JO READS THIS:
MAKE THE DESIGNS EASY TO PULL OUT. I HAD A HARD TIME CUTTING OUT THE DESIGN
AND I ENDED UP TEARING IT.
