## Customer Reviews

Renowned for his friendly, accessible teaching style, Chris Hart is the world's bestselling author of drawing, manga, and cartooning books, which have sold over three million copies in English and been translated into more than 20 languages. He lives in Westport, CT.

It's wonderful to see Hart do a book for his fans on fashion design. While I already own a couple other books by different authors on this topic, it is always refreshing to see how Hart handles it. The instruction is superb and the things he includes are not only believable but things an artist in fashion design is going to use. Nothing foo foo found on a runway...this sticks to the simple yet chic instructions on how to draw fantastic designs. Anyone that is learning to draw the human body

needs this book as well. They work well together...at least in my opinion.

This is a great instructional guide for anyone who wants to learn to draw more fashionable characters. The instructions and graphics are very easy to follow and allow for a significant amount of creativity to be born in your drawings. I would recommend this to any level artist, beginner through professional, who wishes to be more creative in fashion design.

A great book for any girl who loves fashion and is a beginner at drawing. It provides the foundation needed to begin really designing for yourself!

A great book for aspiring fashion designers that rivals the 9 Heads book FIDM uses as a textbook. I had initially purchased this for a pre-teen as a gift and will be purchasing another copy for myself! It explores various fashion poses and explains how to draw fashion figures as well as how to draw fabrics and accessories. Worth every penny for someone interested in fashion design or simply wants more practice drawing figures.

Granddaughter enjoyed receiving this fashion book for her birthday.

Good for teens

Well worth the price. Easy to understand and well made.

LOVE IT
