Customer Reviews

I love playing games - virtually or not and to be honest, I don't know much about Minecraft but it seems very much interesting. This book really taught me a lot of tips tricks and cheats I can do. The experience is wholly compelling for those with a creative itch. Mining resources from the earth and turning them into easily usable materials employed in the construction of nearly anything the player can imagine is enormously satisfying. Mine craft seeds are unique for each edition and version of the game and this is an excellent seed book. This book is a guide to 25 of the most amazing Mine craft seeds. It will walk you through how to utilize these seeds while you are playing and help you create some beautiful landscapes to play in and explore. This is a great strategy on Minecraft that I am not familiar with and this book brilliantly explains the seeds in an easy to understand language. Highlighting the best seeds for each mine craft version. It is very helpful for all gamers like me especially to those people who love playing Minecraft. I enjoyed it.

I chose the rating because the seeds were awesome!!! I LOVE THIS BOOK 1000% LOVE IT!!! IT IS AWESOME!!

I know that it's a good book but I don't like that they put in a Spanish version of the book in the book and it's ridiculous and also , I do like how they ranked it because all of the minecraft seeds were great . :)
