Parenting Toddlers: How To Deal With Misbehaving And Challenging Toddlers (Parents, Toddlers And Discipline)

Synopsis

Does your toddler seem WILD and UNCONTROLLABLE? Would you like to know how to handle TANTRUMS effectively? Are you at your STRESS LIMIT? This book contains proven steps from the world experts on guiding and disciplining children. As parents all we can do is try our best but sometimes it's best to seek applicable knowledge to make our lives that little bit easier. In this book you will find the following: How to diagnose the type of tantrum your child is having and DEAL with it. How to CONNECT with your child so that they feel UNDERSTOOD. How to reinforce GOOD BEHAVIOUR and Drastically reduce the bad. How to punish your child in a way that won't DAMAGE THEIR SELF ESTEEM later in life....and much more. As parents we can feel like we are at our wit's end. This book is designed to give you those extra little tips that make a big difference. Take action today and make your life that little bit easier for a limited price of 0.99\$!

Customer Reviews

Good information, well thought out. Just when I thought I was going to learn more, the book was

over, then I realized the book is for infants and toddlers. Hopefully the author will write another book for elementary and teens. Good read, excellent for new parents. I like the suggestions of placing soft materials on the corners of the coffee table and other furnishings in the house. This is such a great book to read on.

My sisters kid is an absolute nightmare! I got this book to try and help her control her 2 year old and incite some calmness into her! This is a helpful book with proven tips and strategies which hopefully will work- it is too early to tell. The book also delves into the psychology of toddlers which we found to be very helpful.

It really helped me understand how to deal with my kids. I was asked to review this book and give my critical opinion. Honestly the tantrum stuff is something I never even noticed the difference before, for that alone I'd get the book

Very good eBook! I was asked to review it and I have to say, there are lots of brilliant techniques that are so helpful when applied correctly! Highly recommend!
