Synopsis

Recognized for more than a century for clarity, accuracy and detail even the military has relied Michelin maps Michelin offers over 200 selections for cities, regions and countries in North America, Europe, Africa and Asia. In-house cartographers, or mapmakers produce each map and atlas and leave no stone unturned. Everything from major roads to the tiniest routes is depicted on Michelin maps to allow travelers to go off the beaten path with confidence. What makes Michelin maps and atlases stand out? Michelin maps are frequently updated and specifically designed with travelers in mind. Michelin's cartography, user-friendly format and cross-referencing abilities with its renowned guidebook collections are paramount. The clear, clean and uncluttered style of Michelin maps is compounded with extreme attention to detail covering scenic roads, footpaths, panoramic views, emergency telephones, road widths and more. It's this kind of detail that can, for example, help North American tourists avoid surprises while traveling down narrow roads that are often hundreds of years old. Buildings, monuments, park trails and government offices are highlighted, too. When it comes to ease of use, Michelin has really done its homework. Michelin maps and the patented Michelin fold make it a snap to refold, even with one hand on the wheel. All Michelin atlases are available in spiral format, too. That's the number one binding preference according to independent consumer research. Michelin's unique cross-referencing system also makes mapping out travelers trips a cinch. Maps and guides throughout the Michelin collection work together with universal symbols directing to more information.

Customer Reviews

We just finished an 11 day trip in the Aquitaine area. I was the navigator for the entire trip, and this

map was my guide. Excellent routes, all were correct and up to date. We did not have a navigation system, so we relied only on the paper map. This was easy to read and quite extensive. The map, coupled with the ViaMichelin website were a very positive part of our trip.

Great

I needed a detailed map of Bordeaux so I could drive in and out of Bordeaux from the train station. This map was useless for that but excellent for driving around the countryside.

bought for possible trip to France in 2014 -- will have to buy magnifying glass to be able to read

Even with a GPS we used this map a lot for traveling in this area.

When you are driving and are off of the main roads, road details are a must in the planning stage and in the actual experience. These maps are essential.
