Be Creative to Be Yourself Whatever you love, whatever is important to you, whatever makes

you who you are should come out in your art. By making art that matters to you, you're starting a conversation with everyone who sees it. You're saying, "Hey! This matters to me. What do you think about it?"

The Elements of Art in Action You might be wondering, how exactly do I express myself with art? That's where The Elements of Art come in. You might remember these from art class. Just like writers use words to tell a story, artists use these visual elements to express themselves and start their art conversation.

Get Inspired by Color Think of a favorite memory and how it made you feel. Color plays a big part of what you remember. Whether it's a beautiful sunset, the green of spring after winter, or a perfectly white expanse of snow, color makes a huge impact on us, both visually and emotionally. Different colors can give the same flower drawing a completely different feel.

A Spectrum of Emotion Color can be a great way to express yourself and define your mood. When you sit down to color, ask yourself, "How do I feel today? How can I use color to express that feeling?" Sometimes you might even feel something you can't quite put into words, but you can express it with color.

Wonderful pictures for when you are wanting to color something that isn't insanely complicated or intricate. The pictures are more cartoon like. No intricate backgrounds. Sometimes I just don't feel like spending 12 hours on a single picture, or coloring things in realistic colors. This book was perfect for that. Some images are more detailed than others. Some are mostly blank so you can fill in your own designs (hence why the title says activity book) I have included some images. Some colored by me, some blank, and an example of the pages at the front of the book that come precolored to give you ideas about color schemes when you get "color block"

I love this coloring book. Perfect for any girl or any adult who loves coloring cute animals. The book has cute owls and other animals in it. It does not have any intricate pictures to color, but I enjoy coloring simple pictures sometimes that do not take as long to color. I would buy again for myself or to give as a gift.

LOVE these coloring books. Some adult coloring books are way too detailed and the designs too tiny. This one is just right for use with colored pencils, markers or gel pens.

I LOVE THIS COLORING BOOK! It is probably the last coloring book I will buy for quite some time. The pictures are so cute as stated in the title and it is the first coloring book (of many) that I like all the pictures!

If u love to color like myself then. U will love this book. Super fun and cute

It really is super cute! My daughter loves this. And I love that in the front there are several examples of colored pages and shows you fun color palettes. Nice thick paper with no other designs on the back that way you can tear them out to share and you aren't losing the image on the back. Super

cute quotes throughout about happiness. I'm very happy with this book!

All Jess books are awesome. And this one it's no different it's cute, bold and interesting. A must have for your Jess Volisky collection.

The pages in this book fit the title. All the drawings are super cute, easy and fun to color. This book is perfect if you're just wanting something simple, or know of someone who has a difficult time with coloring due to chronic pain or poor eyesight.
