## Customer Reviews

Pat began working in children's publishing more years ago than she cares to remember and is now Editorial Director at Caterpillar Books. As an editor she has worked on titles ranging from atlases to animal pop-ups, craft kits to crazy mazes and sticker books to secret diaries. --This text refers to an out of print or unavailable edition of this title.

I purchased this book for my grandson, he loves it. He is 9 months and the animal sounds are his favorite, in addition to touching the "fur". I like that these book series has replaceable batteries. Would recommend.

Arrived and did not work. No sounds. For \$10+ dollars I would have expected it to come with batteries? Also I'm disappointed in the buttons I highly doubt even if it worked my 9 month old son could push them himself.

It's such a cute book for young kids. Only negative is ours is not very loud. You really can't lay it on the floor, table or your lap, because the speaker is behind the book.

Overall the book is cute. We got the farm animal book as a gift and my daughter liked it so much I thought I'd buy this. Only 4 stars because the volume on it is very low. Like I said we have the farm animal version and it's much louder. I'm sure if I change out the batteries it'll be ok but for a new book to have to replace the batteries kinda stinks.

Our Granddaughter loves to hear the animals, and she's only 3 months old, but she sure does love listening to them.

Super cute! Feels like real animal fur. The only thing I thought could improve was the amount of pressure you have to "pet " the animal with. Little ones have a difficult time pressing the sound buttons ,and can get frustrated .

Loved this book but the binding broke within a month of receiving it. I would have hoped it lasted longer.

The buttons are hard for a one year old, but she loves it even if I have to push the buttons for her.
