Awesome

This book is a color, well-written, no-nonsense look at the many Bali sites by two Bali veterans. Rock is a veteran Indo-Pacific photojournalist who published Bali's first guidebook back in the late 1980s. Hinderks is a professional instructor and divemaster who has worked in Bali and Indonesia for years. A good combination that allows thoughtful insights to each site and the choice of many locales to dive. Bali is covered well from east (places like Sanur, Candi Dasa, Padang Bai, Tulamben) to west (Pemuteran, Menkangen, etc.). Nusa Lembongan, Ceningan, Nusa Penida and the wonderfully laid back Gilis in Lombok are also included. The superb photography shows the great variety and color of the Bali marine life. This island may be one of the most overlooked dive destinations in the world as it has so many other things to offer. But muck divers love this place for its macro life and rare sea creatures ranging from the big like the odd mola-mola sinfish to the small in wierd fish like the Pegasus sea moth or a pygmy seahorse. And there's even an ode to the tank carrying ladies of Tulamben. This is a must have book for anyone venturing into Bali's waters on snorkel or on scuba.
