Customer Reviews

I bought the Kindle version of this. The music is nice, easy enough for a later beginner or intermediate pianist, and tasteful arrangements. The kindle version, however, is too small to use at the piano. I tried printing it out, but the pages were fuzzy. I wish I had bought the real book.

Does not include all of the songs from the movie but has most. Bass clef arrangements are not always pleasing to the ear but that's an easy fix by playing chords instead of written bass clef notes in those areas that sound less than pleasing. I'm an advanced beginner and I'm enjoying learning and playing the songs.

Great

Love it.

Birthday Gift well received for a Grand child. Her mom always enjoyed playing extra music other

that what lessons called for and this is a great outlet for that.

My grandchildren are taking piano lessons.. delighted to learn the songs! Even my 6 year old now learning right hand to "My Favorite Things"! Love it!

Arrived really quickly and was as described. Easy music to play.

These classic songs are great for several number of levels of students. Even though they may be for young players, the essence of the song is not diminished.
