Lydia Sloan Cline is a professor at Johnson County Community College, where she teaches SketchUp, AutoCAD, manual drafting, and interpreting architectural drawings. She is also the author of Architectural Drafting for Interior Designers and Drafting and Visual Presentation for Interior Designers.

I am determine to learn the program and find the book very easy to follow. It guides you step by step giving you actual examples of exercises to advance your learning. The book and the videos by the instructor at the college make a great duo for learning SketchUp. Love the book.

It was the only book that helped me understand my class projects.

Great book. Step by step and work flow makes sense.

Helpful to get me up and running with Sketchup.

I found many of the tutorial directions to be confusing or just plain wrong. Maybe its not the right version (it doesn't say what version it is). Maybe its just me...I guess i need sketchup for dummies:)!

Some of the tutorials do not explain the program well

For school

ok satisfied
