Collins Handy Road Atlas Scotland

Synopsis

This easy-to-use, handy A5-sized road atlas is your ideal companion for traveling around Scotland, with extremely clear route-planning maps of Scotland and detailed plans of the major cities and towns. These clear, attractive route planning maps of the whole of Scotland, which are small enough to fit into a glove box or briefcase, are supported by comprehensive, fully indexed city center street maps of Aberdeen, Dundee, Edinburgh, Glasgow, Inverness, and Perth. The main maps have a scale of 1:625,000, or 9.9 miles to 1 inch. Places of tourist interest are highlighted. The atlas has attractive layer coloring showing land height, and the road network is fully classified and color coded. There is detailed street mapping of large cities, including: Edinburgh, which includes the Royal Mile with all its attractions clearly marked, Leith, and Holyrood Park; Glasgow, including the West End, city center, and M74 extension; Aberdeen; and street maps, with indexes, of Dundee, Inverness, and Perth city centers. A handy distance calculator chart highlights distances between the major towns. Administrative areas map show council areas, and a transport connections section lists all the airports and details of all vehicle ferries into and within Scotland.

Collins Maps allow you to explore the world through accurate and up-to-date mapping created by Collins UK, a leading information-led publisher of illustrated and narrative non-fiction.

It's alright if your eyesight is as good as a typical 8 year old. If your eyes are over 30 yrs. old, you're likely to have trouble with the busy confusing tiny print maps. They were impossible to read. We'll.

Be in a rent a car without our GPS. We had planned to buy a good Scottish map. This leave alot to be desired.three stars for fulfilment of order, delivery and that someone has better eyes and could use this tiny print.

Great map for the cities (Edinburgh, Glasgow, Aberdeen, Inverness)! Scant detail in the Highlands. Almost no information on the Western Isles and the Orkneys. Not good for driving in the country unless you're sticking to major roads.

We were unimpressed with this map. It really only focused on Edinburgh and Glasgow, so if you are traveling anywhere else it wasn't a huge help as smaller roads weren't even listed. Even in our travels in Edinburgh, it didn't have a zoomed in area for all the places were were looking to go. I'd look elsewhere for a map.

Wasn't very detailed...

Can't wait to use it!

Exactly as described. Nice. Great weight/size to carry with you all day.

Collins road atlas books are awesome for self drive traveling.

It is probably a good road atlas, but we did not get around to using it because we were busy and we used our GPS, instead.
