New Avengers Vol. 1: Breakout (The New Avengers)

Synopsis

Collects New Avengers (2004) #1-6. In the wake of the systematic destruction of the original Avengers, just what sort of threat to the world could persuade Captain America to assemble an all-new team? And following the events of AVENGERS DISASSEMBLED, who could possibly be on this team? How does Cap, Iron Man, Spider-Man and Wolverine sound? Fate has brought them together, and now Captain America wants to make it permanent! Who will take his hand and join the new Avengers? And will they be strong enough to fight the mysterious forces at play around them? Collects NEW AVENGERS #1-6.

Customer Reviews

This story involves the formation of new avengers after a large-scale prison breakout at the raft prison facility. The first 3 issues set up the situation where the heroes are forced to fight the villains who escaped as soon as electro causes the security systems to malfunction. The remaining 3 issues is formation of this roster of heroes: Spider-Man, Luke Cage, Spider-Woman, Captain America, Iron Man and Wolverine.

I was really disappointed when this version of this book ended because it had all my favorite characters in it and hadn't happened before or after. Luke's team was a really good mix of characters with a lot of good stories to tell. Thing, Spidey, Wolverine and Carol Danvers on the same team was a nice break from the "Big Three" Avengers. Also, it was cool to see a "street level" version of Avengers. This is probably my favorite incarnation of The Avengers. Hopefully, after Secret Wars, we'll see a reasonable facsimile of this team again someday!

What did I like.....? The structure, the story. The meta back story, the art, the layout and the character growth. I've been reading Marvel since the early 1960s and always felt there was some kinship with the works offered, the zeitgeist of the Twilight Zone and the best of Science Fiction of that decade. This takes all of that and everything that Marvel did after and marches it into a future along all fronts I took note of and probably many more with passion, craft, a quantum scope of style and depth of story that does the Old Masters proud from Kirby and Ditko, through Steranko, Heinlein, Asimov and Sturgeon. Maybe I read too much into Marvel Comics but I grew up in my pre-teen years reading classical strains of European mythology. It informed the world views of those peoples. This is the mythology of our new age. Nuff Said.

New Avengers is an important title for the Marvel Universe, and it starts here. The premise: after the original Avengers disassembled, a new handful of heroes have gotten together to carry on the legacy. I don't want to ruin any of the surprises behind "Breakout" (which there are a couple) but merely comment on the importance of the book and the series itself. By this point, if you did not know that Brian Michael Bendis has taken almost complete control of every major Marvel Universe Event since Avengers Dissassembled, you are a little behind. He's an author that you either love or hate for his directions. While two main stories happened prior to the start of New Avengers (Disassembled and Secret War), this is really where the Marvel Universe begins to see its change. The story behind "Breakout" to put it simply is that there is, you guessed it, a breakout, and many, nearly 50 villains from a wide array of comic series escape. This event, which gathers the New Avengers initially, affects the Marvel Universe as a whole for a great while into Bendis' Marvel timeline. (Punisher War Journal which started about the time of the Civil War made numerous references to this breakout during its run, just to give you an idea) New Avengers does not do a BAD job on anything. The dialogue isn't terrible, the action is solid, and the art doesn't leave you wanting more. That said, New Avengers is not a continuously great title. I thoroughly enjoyed "Breakout" and would recommend it to anyone who likes comics. The series afterward I found to be

very off and on good...one thing i give Bendis credit for is his overall consistency (ultimate spiderman comes to mind in that same respect). The importance of the New Avengers (and later the Mighty Avengers) is mostly as a companion to the main events in the Marvel Universe, and the MU is certainly full of events that are worth having extra information for. Although Bendis takes too much advantage of this during Secret Invasion (which is almost completely unreadable without the Avengers titles), New Avengers is a solid read that doesn't always leave you wanting more, but leaves you satisfied enough to continue reading if you have the time

A graphic novel collection of issues 1 through 6. The Avengers broke up after the Scarlet Witch had a breakdown that resulted in the death of several Avengers. But fate brings together a new team when there is a breakout at the Raft, a prison of super powered criminals. They decide to stay together to try and recapture the criminals who got away. This is a new mix of heroes with a new mission. It is interesting to see a team with an actual mission beyond just catching the latest villain to pop out of the woodwork. The heroes have a good chemistry from the very beginning. Finally the artwork is very nice comic book artwork.

I read it and I liked it.

This is a great Avengers team. It features Netflix heroes Luke Cage, Jessica Jones, Iron Fist. Spider-man, Wolverine, the Thing from the Fantastic Four, Ms Or as she's called today Captain Marvel, Doctor Strange, And Hawkeyes ex wife Mokinbird. This book has a lot humor and action. I loved it.

This is what comics like the Avengers, X-men, Justice League etc. are supposed to be about. Cool action cool story. It's nice to see a comic finally get away from all of the political drama and conspiracy stories that in the end just dragged on and on. I am so tired of buying collections like all of the Siege books that had virtually no action and were more just tiring dialogue. When I want drama I will watch Smallville. When I pick up the Avengers this is what I expect to see, Luke Cage knocking something out, Spidey being in way over his head, Wolverine cutting crap up. The addition of the Thing was pretty cool too. Its nice seeing the writers getting away from the older up-tight Avenger model teams from back in the 80's and putting some attitude into the team.
