Netter's Essential Histology: With Student Consult Access, 2e (Netter Basic Science)

Synopsis

Netter's Essential Histology integrates gross anatomy and embryology with classic histology slides and cutting-edge scanning electron microscopy to give you a rich visual understanding of this complex subject. This histology textbook-atlas has a strong anatomy foundation and utilizes a variety of visual elements - including Netter illustrations and light and electron micrographs - to teach you the most indispensable histologic concepts and their clinical relevance. Excellent as both a reference and a review, Netter's Essential Histology will serve you well at any stage of your healthcare career. Gain a rich understanding of this vital subject through the succinct explanatory histology text. Learn to recognize both normal and diseased structures at the microscopic level with the aid of succinct explanatory text as well as numerous clinical boxes. Access the entire contents and ancillary components online at Student Consult, view images and histology slides at different magnifications, and watch new narrated video overviews of each chapter. Take your learning one step further with the purchase of Netter's Histology Flash Cards (sold separately), designed to reinforce your understanding of how the human body works in health as well as illness and injury.

Customer Reviews

"This book uses a unique "plate" format where the text acts as an expanded legend to the accompanying illustrations. The information is delivered in small, reader-friendly chunks. Unlike

other established books in histology, the text and images are always on the same page. Because of the generous use of Frank Netter illustrations, the book is successful in bridging the gap between gross anatomy and microscopic anatomy."-George Niiro, PhD(Midwestern University) Doody
Review: 5 stars

Ordered for a friend in school.

Excellent

well written and illustrated

excellent

Very informative text for histologists. Easy to read, and great for continued education. There are Plenty of detailed pictures captioned well.

High quality book.

Wonderful Textbook and delivered exactly as advertised.

Ver Good book.
