Domestic Violence Law, 4th Edition (American Casebook Series)

Synopsis

Through articles, book excerpts, cases, and statutes, the author encourages discussion of the legal system's role in domestic violence situations. Topics range from historical and basic issues, such as restraining orders and tort suits, to controversial ones, including marital rape, arrest and prosecution policies, and battered mothers charged with failure to protect their children from batterers. Other chapters cover how domestic violence impacts different groups. Additional topics include guns, confidentiality and safety, and victims as welfare recipients, workers, tenants, and applicants for asylum. The materials foster critical thinking among students, as they include contradictory points of view.

Customer Reviews

Excellent! The book is in new condition. I haven't seen anything wrong with it. It is actually quite interesting so far.

Very long and boring book I had to read for law school. However the content was good

This book contains recent cases that get at key issues in domestic violence law. Another excellent edition. Very useful for teaching.
