Beautiful, detailed pictures to color .I love this book !

I just want to say that I dearly love this adult coloring book! Kent Chua is an excellent artist. I love detail and he has plenty of detail to each page. When I am coloring a picture in this book I don't want to quit until I'm finished. The only problem is I can't finish in one sitting! Lol.This book is so relaxing as you add color and watch the pictures come to life. Thank you Kent Chua for a lovely book. ã Â Â^Â

For those who like to color intricate drawings, this is a must-have coloring book that should be added to your collection.This book showcases a wide range of drawing skills that are highly complex. They required considerable time, patience, and effort for the artist to create. All the drawings were created by hand only. The result is a work of art like no coloring book you have ever seen. It is truly inspiring. It will make coloring a real joy and spur users to a new level of creativity. This book is designed in large print, which makes it a great collectible coloring book for gifting or for personal use. Each page is properly framed with an extra border that is away from the binding, not off the page. The drawings are printed on single-sided pages that are suitable for framing. Inside this book you will find an assortment of beautiful art to color. There are creative mandalas and intricate patterns to color.You will also find mystical creatures, such as the legendary dragon and mythical phoenix, beautiful animals such as butterflies, entwined elephants, a powerful lion, great horned night owl, gracious peacock, goldfish, camouflaged chameleon and moreãÂ Â| Fine-tipped colored pencils, gel pens, and markers will all work beautifully with this book. The endless details of each page will encourage you to concentrate and become focused. You will lose yourself in your progress as you let the stress melt away. Coloring is a new meditation that helps you do something great for yourself in a positive state of mind. The potential of coloring is limitless.

I totally love this coloring book. I purchased this coloring book and you must know it is Magnificent, seriously magnificent. It is amazing in details and easily colored as a simple page, it can be colored

as you wish yet the detail is there for those with the skills and it is there as you learn to do more with your colored pencils and pens. You are going to love this book, Kent the artist who has created this art is talented and share his talent with us all. BRAVO!!

Received my copy of Coloring of The New Meditation yesterday. Artist Kent Chua is phenomenal and more, especially considering that he is self taught. Having zero art background myself, i cannot speak to the technical aspects of Kent's images, I can only tell the reader how beautiful they are. And they are very beautiful indeed! Congratulations on a truly divine piece of work!

Started this amazing picture yesterday, and one word describes it, INTRICATE! Love this new book by Kent Chua, called Color is the New Meditation 1st Edition. I am using Pilot Juice Gel pens along with Kuretake Zig Clean Color II waterbase Dual tip pens. Loving the intricate artwork that Kent Chua has created. Every time I start to put pen to paper I see another flower or creature. Makes me have to concentrate on what I am doing, which is exactly what I use as a form of colour therapy. This entire book is just like this picture, and all colourists need this in their colouring collection of books!! It is in both hard copy form (on), and also digitally on Etsy, and which of course I purchased too so I can enjoy colouring it on the iPad Pro.

Fantastic art and paper that takes pencil, gel pens, sharpies and pastels and watercolors. In my top 5 of favorite books.

These pictures are beautiful Mandala style large pics with intricate components. The artist gives a few tips on coloring for enjoyment and meditation on the first page which would be helpful for new colorists then it's on to lovely pictures printed on one side of decent paper. It's a larger book and so far my fave is the multiple bunnies cuddled with stars around a moon. Love this!
