Customer Reviews

Jordan Adler has written a book which should be read for ANY and ALL Network Marketers! It should even be read by those even thinking of getting into the business so they will know what is expected of them. Make sure your downline has this book as well. Honestly, it started off a bit slow with no meat and potato information partway through aside from the occasional "gem" inserted into the paragraphs. But once you get into the meat of the book, you will end up highlighting a good portion of the book and seem to forget about the first half of it. No doubt this book will go down as one of the best ever written on Network Marketing!

This book is great for network marketing motivation and how you can be consistent in your business and watch it grow even while on the beach.

Reading this took a weight off my shoulders! I truly recommend it for any one in the network

marketing industry. He explains how simple our industry is. A tough job is required though, but a simple (not easy)

This is a great book for anyone involved with an MLM business, especially if you are struggling. I would highly recommend it to my new team members. As much as my family is concerned with my decision to keep at this, I realize I am not the only one and my dreams will come true if I just put the work in. This book has great simple strategies that just make sense.

Great book for anyone that wants motivation for building a MLM business successfully.

Jordan Adler does an excellent job covering the subject of Network Marketing in this book. I also appreciate that he relates his personal experience in this industry, both the negative and positive results. His willingness to continue where others quit is what provides him with the opportunity to share his life-learned lessons and inspire others to reach their hopes and dreams through the powerful and rewarding efforts of Network Marketing.

Jordan has a unique method in delivering his message. Simple obstructions and more importantly the inspiration to achieve your life's dream. A must read!Thank you Jordan

One of the best books out there. If you are serious in building a lasting organization then the insights in this book are powerful and will help anyone achieve passive income in network marketing. And I like the approach of the Jordan Adler, just like me, very laid back and less hype and pressure but more of a realistic and practical way of doing the business.
