## Customer Reviews

While I know that there are couples who engage in filthy talk as part of arousal process, many have not really explored this idea because they personally think it is out of their leagues. When I read this book, my mind was opened to the many possibilities that words can do to make the lovemaking a bit juicier than usual. This book supplies the simple instructions on how a couple can do it right. While this practice may not be for everyone, since others can find it distracting. It doesn't hurt to try it out.

I will be honest based our observation with my husband, do 20 minutes of just talking dirty to each other before you even removed your clothes and touch each other, you will see the big difference it makes. It is so intense and it adds up the fire with the two of you. Been married for 15 years now and I must say that it feels like the first year of our marriage. Nothing wrong with having dirty talk sometimes.

While reading this it makes me think of wild stuff with my husband. I can't help it but share the thoughts with him and let him read this book as well. I believed he also thinks of what I have in mind. I recommend this book for couples. This is a couples book in my opinion because you can never do it by yourself.

This is a great book if you read this with your partner. This is a couples book I believed. I read this with my wife and she was laughing with me because why I bought this kind of book. But to be honest this is really good because we got a chance to talk what we want and what do not want. Sexy talk is OK sometimes.

This book gives great suggestions and the thought of having dirty talk sometimes. I certainly believed that couples or lovers who do dirty talk at times makes their relationship more intense and gets stronger at times pass.

Love it! The book helped me to diversify my intimate marital life...

So you get two quite different books when buying this. First one is about dirty talking before, during and after sex. Includes tips and tricks for both female and male. So if you think you're missing in this department and would like to try it, but don't know how, you should give it a look. The second part is about tantric sex, which I found quite interesting, because never read anything like this, only heard some things. Includes different massage techniques for the main body parts, also from the perspective of both sexes.

Talking dirty to our love relationship is the absolute best way to build sexual tension with him/her. Here are some dirty things you can say to your love partner and get you both in the mood for intimacy, there are very helpful hints.
