The Senate Intelligence Committee Report On Torture: Committee Study Of The Central Intelligence Agency's Detention And Interrogation Program

Synopsis

“The most extensive review of U.S. intelligence-gathering tactics in generations.”
• Los Angeles Times
Meticulously formatted, this is a highly readable edition of the Senate Intelligence Committee’s investigation of Central Intelligence Agency interrogation and detention programs launched in the wake of the 9/11 attacks. Based on over six million internal CIA documents, the report details secret prisons, prisoner deaths, interrogation practices, and cooperation with other foreign and domestic agencies. It also examines charges that the CIA deceived elected officials and governmental overseers about the extent and legality of its operations. Over five years in the making, and withheld from public view since its declassification in April, 2014, this is the full summary report as finally released by the United States government on December 9th, 2014.

Customer Reviews

A Boston Globe Bestseller
“This massive chronicle of malfeasance concerns not only the efficacy of certain interrogation techniques, not only the perennial clash between spies and their civilian overseers, but something far more profound: the nation’s political soul.”
• Harper’s
“A high-quality version of the 500-some page report.”
• John Hockenberry, The Takeaway/WNYC
“The most extensive review of U.S. intelligence-gathering tactics in generations.”
• Los Angeles

Times

“The Senate intelligence committee’s report is a landmark in accountability . . . It is one of the most shocking documents ever produced by any modern democracy about its own abuses of its own highest principles.”

•The Guardian (UK)

“Exhaustive . . . Haunting”

•Washington Post

“The small independent publisher Melville House has done it, turning ‘a five-hundred-and-twenty-eight-page PDF with the slanted margins and blurred resolution of a Xerox made by a myopic high-school Latin teacher’ into a more readable text.”

•Andrew Sullivan, The Dish

“Releasing this report is an important step to restoring our values and showing the world that we are a just society.”

•Senate Intelligence Committee chair Senator Dianne Feinstein

“A portrait of depravity that is hard to comprehend and even harder to stomach.”

•New York Times

“Details the use of gruesome torture techniques used by the CIA and . . . concludes that the agency misled both the White House and Congress.”

•Christian Science Monitor

“I believe the American people have a right—indeed, a responsibility—to know what was done in their name; how these practices did or did not serve our interests; and how they comported with our most important values. I commend Chairman Feinstein and her staff for their diligence in seeking a truthful accounting of policies I hope we will never resort to again.”

•Senator John McCain

“Melville House is betting that there’s enough interest in the Torture Report that people will want to have it in book form.”

•Rachel Maddow, MSNBC

“The book business in 2015 is pretty much a crapshoot, but it’s hard to believe that even the canniest insider could’ve predicted the sales success that indie publisher Melville House has had with the Senate Intelligence Committee Report on Torture.”

•Vulture

“A tiny Brooklyn publishing house printed a 50,000-copy run of the Senate torture report—and it’s flying off shelves faster than The Goldfinch.”

•Entertainment Weekly

“Given the swift and harsh condemnations of CIA interrogation tactics, the Torture Report is sure to top nonfiction charts for months to come—mark my words.”

•Bustle

“If you were wondering why it’s important that indie presses exist, HERE, THIS IS WHY.”

•Portland Mercury

“A watershed moment in contemporary publishing.”

•Flavorwire

“It’s quite the important and powerful idea: that simply repackaging material can make it more accessible and can perhaps make it last—truly last—in the way we need to know and remember it.”

•Ploughshares

“[Melville House is] continuing the critical work of publishing important documents.”

•Shelf Awareness

“Small but conscientious Melville [House] is rushing to get the report out promptly.”

•Library Journal

The United States Senate Select Committee on Intelligence was created by the U.S. Senate in 1976 as a bipartisan committee responsible for overseeing federal intelligence activities. It is the committee's responsibility to "oversee and make continuing studies of the intelligence activities and programs of the United States Government," to "submit to the Senate appropriate proposals for legislation and report to the Senate concerning such intelligence activities and programs," and to "provide vigilant legislative oversight over the intelligence activities of the United States to assure that such activities are in conformity with the Constitution and laws of the United States."

Having read this report, I am convinced that evil is most effectively perpetrated by bureaucrats. This report catalogues a litany of lies, misrepresentations, and obfuscation perpetrated by the CIA against congress, the president, and the world in general. It is amazing to me that no one is in prison because of this, but we as a country are poorer for having allowed these acts to happen. What is clear is that we tortured people, repeatedly, but did not derive any useful information as a result of this torture and continue now to face the consequences for our actions.

Basically the closest thing any regular citizen can get to an organized dump of objective facts (although, perhaps, curated to tell specific stories which may be biased) on this matter. Keeping in mind the full contents of this book are copied from CIA internal documents, prior "debate" on the torture ("enhanced interrogation") issues have nothing on what's in here. Only downside: the writing is not as gripping as the science fiction I usually like to read.

This is a necessary book for anybody to read that wants to understand just what it is that were capable of, as well as to understand what we find to be acceptable despite knowing that such tactics are ineffective. This is an eye opening book, I'm not going to lie it's disturbing, it's hard to read, but it's one of the most necessary books I've ever read. Not meant for anybody that has a weak stomach, for anybody that is easily upset. This book is only for people that want to understand what's going on, and understand exactly what we were doing, and to try and understand why it is we did it.

Everyone should buy and read this. Seriously, do something your congressman won't do (even though we pay them to do their jobs they still won't but whatever). Very dark and informative. Thank

goodness this was unclassified!

Impressive report. Anyone wishing to know about the truth of what went on and was authorized after 9/11 should read this. Sean Hannity and FOX viewers AVOID this book. It only deals with TRUTH, and there aren't a lot of pictures.

As a friend noted, this part of our history will be rewritten and rewritten again and again as time progresses. This long-awaited augmentation of history is and will be the foundation for many of the rewrites. Note that every part of it is cited to CIA source materials.

Book arrived in great condition! Exactly the item I expected.

Five stars being called "I love it" is not really appropriate, but if you live in the U.S. and you *don't* read this, then you've abandoned your civic responsibility and you're a disappointment to your family.
