Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.

This is a sturdy map that may be too big to pack, but I've got it on the bedroom wall and am very pleased and excited because I'm going on a cruise around Japan. I often check the route of the ship and think about the excursions offered in the port cities. The reverse of the map has Hokkaido, but I only need to see Tokyo to Kyushu and Okinawa.

An excellent map of Japan for hanging on the wall or navigating Japan on a road trip around the country (which we did). Helpful to have all the information in English!

Very good Map. I bought this when I had visit my relatives.

Good map for self touring.

Just the right amount of detail for travel planning. The fact that it is tear resistant and waterproof is great.

great map, very strong, not tearing. the map divided to two sections: northern japan (northern honshu and hokkaido) and western japan (western honshu, kyusu and shikoku) which seemms to be pretty good division. i recomend this map for everyone who travel in japan!

Fantastic map! I watch an English-speaking Japanese channel. When they mention a town, now I can look it up. Will come in handy planning a trip there

good map, easy to read.
